Thurs. 15:30

High Fidelity Simulation Course – Massive Bleeding

DON'T MISS THIS SESSION!! Get first-hand experience with the power of High Fidelity Simulation (HFS) as a learning tool while also strengthening your crisis resource management skills.

This 90-minute session will introduce our HFS course in massive bleeding. It will allow hands-on interaction for a participant team and give audience members an opportunity to see the high-fidelity simulation process and debriefing session in action.

Intended Audience

Physicians, Nurses, Respiratory Therapists

Moderators

John Kim, Randy Wax
