

Glory.

Guts.

Insciber® LIVE!Solutions™: Dedicated online graphics studio, CG, digital store, and automated video titler.

Get ready for Insciber's new line of dedicated videographics products, the **Insciber LIVE! Solutions**. Combining Insciber's highly acclaimed videographic software with reliable Insciber video hardware, the **LIVE!Solutions** enable artists to create and display glorious television graphics quickly, easily and reliably.

Insciber LIVE!Studio™ is an **all-in-one modular videographics solution** combining a character generator, motion effects editor, video paint toolbox, still and video clip store, and a dynamic event sequencer. **Insciber LIVE!CG™** is a **proven character generator** with the ability to animate titles, graphics, and logos. **LIVE!Store™** is Insciber's still and clip store which features a centralized database manager capable of organizing and accessing an entire facility's titles, stills, animations, video clips, and audio files. **Insciber LIVE!Automation™** is used to

automatically generate titles for news, sports events, elections, and other data-driven programming and is fully compatible with leading news automation systems.

LIVE!Solutions products are also **compatible with all the video and computer equipment in your facility**. With support for most graphic and media interfaces, including everything from Powerpoint templates and BMPs to Chyron message files, and video formats including composite, component, RGB, Y/C, and SDI in either 4:3 or 16:9 NTSC, PAL, and HD resolutions, you can see why Insciber videographics tools are used in broadcast facilities all around the world!

After all, if you want television graphics that really grab your audience, you need a graphics platform with heart. **As the expression goes: No guts, no glory.**
